welcome

...to Complete Family Eyecare. Our mission at Complete Family Eyecare is to contribute to a lifetime of healthy vision for all of our patients. Through the care we provide, we are committed to the visual needs, wellness and improved quality of life for our patients. Continuing education will remain at the forefront of our priorities to ensure we offer the latest eye care, technology and products. Our staff is dedicated to providing you with the highest level of care.

We thank you for the opportunity!

## DR. LORI GRAY

Dr. Gray is a graduate of the Pennsylvania College of Optometry, where she graduated with clinical and leadership honors. She received her Bachelor of Science in Biology from Villanova University. She is an active member of the American Optometric Association, Pennsylvania Optometric Association and sits on the Board of Directors for the Bucks Montgomery Optometric Society. Dr. Gray was recently awarded "Young Optometrist of the Year" for her involvement with the Bucks Montgomery Optometric Society.

In addition to private practice optometry, Dr. Gray also serves as the Clinical Director of TLC Laser Eye Center in Plymouth Meeting, PA. There she participates in the pre and post operative care and oversees all aspects of refractive surgery.

Special interests include advanced LASIK and surgical co-management, therapeutics and contact lenses. With continued learning, constant updating of her skills and regularly lecturing to both her community and her colleagues, Dr. Gray remains a leader in her field.

## DR. VISHAL PATEL

Dr. Vishal Patel was born and raised in Scranton, PA. He completed his Bachelor of Science in Molecular Biology at Lehigh University and his Doctorate at the Pennsylvania College of Optometry. He is an active member of the American Optometric Association, Pennsylvania Optometric Association, and Bucks Montgomery Optometric Society.

In addition to providing comprehensive family eye care, Dr. Patel also performs pre and post operative care for cataract and refractive surgery patients.

Special interests include ocular disease management and broad-spectrum contact lens fittings. Dr. Patel enjoys spending his free time traveling with his wife and daughter.

COMPLETE FAMILY EYECARE

## CHILDREN'S VISION

We recommend eye exams for the prevention of disease and to monitor normal eye development.

Early detection is critical to preventing vision problems that have lifelong effects.

We recommend eye exams before AGE 1, at AGE 3 and at AGE 5.
